Wigry
Complete filter for pond

clean water
healthy fish
time to relax

AQUAEL

WIGRY
What I am:

Outlet adjustment within 30°
easy positioning of the device on uneven ground

Transport handle
also used to retract the cable when storing the filter

T-piece
allows any distribution of the flow of water into a fountain and/or cascade*

Installation of the filter below the water surface

Power cord
with a length of 5 m

Telescopic outlet tube
smooth adjustment to the depth of the pond

LED signaling
UV lamp operation

Fountain nozzle
effective oxygenation of water and a nice visual effect

Universal

Impressive and discreet

*Cascade and waterfall not included.

WIGRY

Effective water purification in 4 stages:

1. **Mechanical filtration**
   The perforated housing retains large contaminants. The sponge cartridge retains smaller contaminants and protects biological media.
2. **Biological filtration**
   BioceraMax 600 biological media ensure biological balance

3. **Chemical filtration**
   ZeoMax Plus chemical cartridge removes heavy metals from water, toxins and phenols

4. **Sterilization**
   Built-in UV sterilizer, prevents the growth of algae and pathogens
