NEW

The Opti Set is the first set of its kind, mass-produced from opti type glass. The increased transparency is further emphasized by the colorless weld. Particular attention was paid to details such as polished edges and a satin finish on the lid and bottom bezel. All this with a view to a spectacular functional and visual effect. **Thanks to the use of the lower frame, the aquarium does not need additional protection in the form of a mat/pad.**

Tank made of opti type glass (front and sides)

Polished edges, clear binder

Fashionable satin finish of the cover and bottom frame

Flap in the lid, convenient access to the tank (feeding, administering preparations) without having to open the lid
